Bridge to Freedom Foundation (BTFF) was founded in December 2008 to bridge gaps in information and services which hinder the growth of survivors of modern slavery. BTFF works to enhance and improve the opportunities available to survivors of modern slavery. BTFF accomplishes this by connecting for-profit corporations, community groups, educational establishments and the general public. The cornerstone of BTFF's work is their support to survivors in the form of personal and professional development. BTFF will launch their personal development pilot program this fall.

BTFF, a 501(c)(3) nonprofit organization, is currently 100% volunteer led and 100% donor supported. For more information contact: PO Box 2492 Merrifield, VA 22116; Phone: 703-256-5718; info@BTFF.org

Accelera Solutions is a virtualization solutions provider focused on desktop, application and server virtualization. We provide consultative support from the desktop to the datacenter by offering a virtual computing infrastructure which simplifies IT systems into a centralized, easily-managed environment. Our solutions minimize risk, drive cost savings, improve security and maximize efficiency for greener computing in government and commercial organizations.
